

TARGETING KAZAKHSTAN?

WHEN SAFETY MAKES DIFFERENCE

CERTIFICATE OF CONFORMITY

(coll. GOST K)

To gain access to the Kazakhstan market, many goods are required to be in compliance with the criteria of the National Standards (ST RK) or safety regulations.

It mainly concerns

- Food
- Textiles, cosmetics and toys
- Electrics and electronics
- Telecom equipment
- Etc.

This conformity has to be proven by means of a [Kazakhstan Certificate of Conformity](#).

An original or certified copy of a Kazakhstan Certificate of Conformity is required for customs clearance at the border as well as for sale/marketing within the country. For industrial equipment it is also required at commissioning.

The certified product or its packaging should be marked by the [Kazakhstan Mark of Conformity](#). 

ROLE OF KAZEXPOAUDIT

We are the official North American representatives of Kazexpoaudit LLP, one of the largest certification bodies in the countries of the Customs Union. Our mission is to assist business community in obtaining all the required permits to do business and import products safe for human health into the markets of Kazakhstan, Russia and other CIS countries.

Kazexpoaudit has unrivaled expertise on Kazakhstan's certification services market going back to 1997. During this time, the company has assembled a strong team of professionals, built a modern high-tech testing center, and established friendly relations with colleagues from the CIS and Europe, helping us to win the confidence and recognition of manufacturers and suppliers worldwide.

We offer

- Full certification and permitting support
- Assisting and support in English 24/7
- Transparency in procedures and pricing
- No delays at customs

PERMIT TO USE

In Kazakhstan many industrial equipment is subject to the approval of the Kazakh State Committee of Industrial Development and Industrial Safety.

The Permit To Use is essential to obtain permission to put into operation such equipment as

- Lifting equipment
- Heat exchangers
- Burners and boilers
- Pressure vessels and compressors
- Etc.

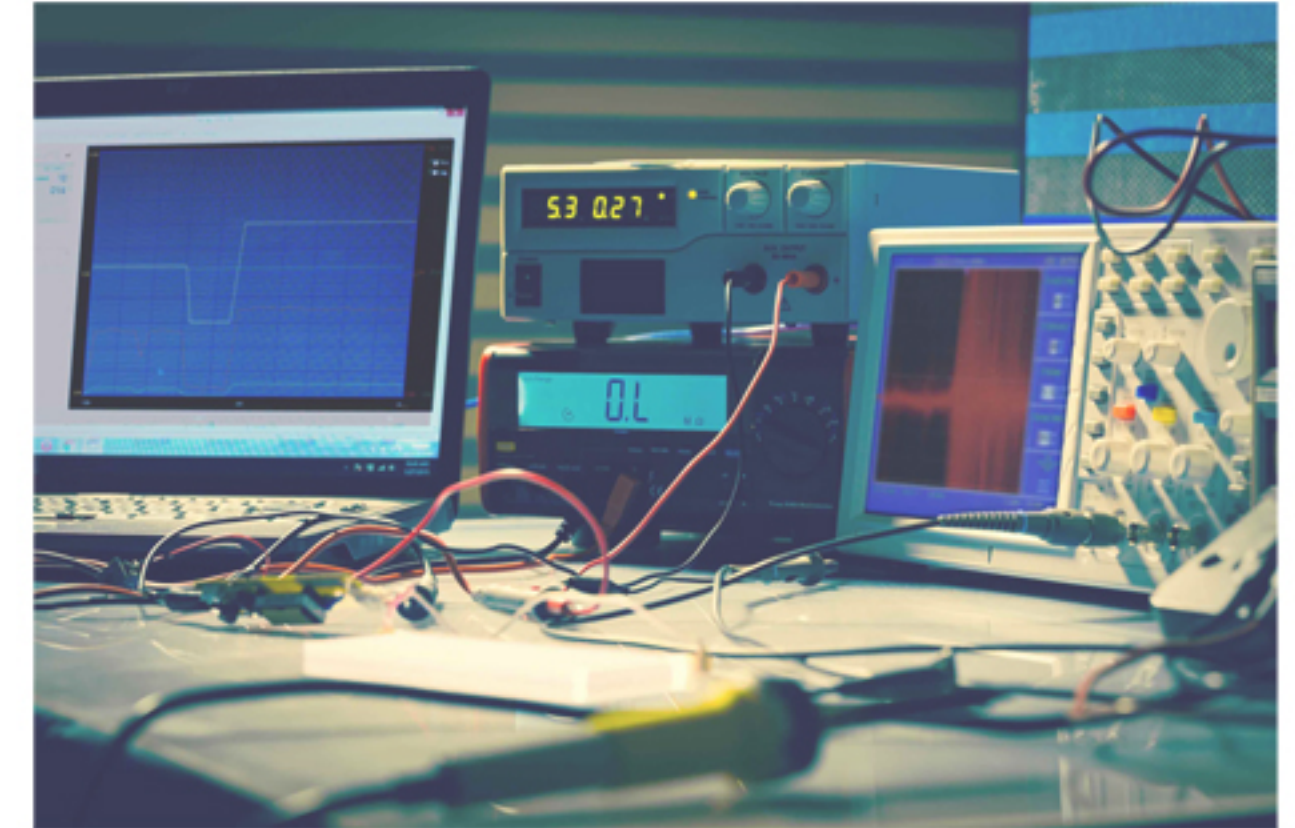

A Permit To Use can only be issued on basis of an expertise executed by a Kazakh Expert Centre accredited by the Committee.

[KAZEXPOAUDIT](#) is authorized to perform expertise and work related to industrial safety examination.

METROLOGY CERTIFICATE

All measuring instruments imported and assumed to be applied in sphere of realization state metrological control are subject to metrological approval the Republican State Enterprise Kazakhstan Institute of Metrology (RSE KazInMetr).

Metrology Approval could be of two types either [Metrology Attestation](#) or [Pattern Approval](#). You choose one based on your needs, terms (validity date of certificate, quantity of measuring instruments of one pattern), price, lead time, etc.
